### Projects

#### Research Portal, *ReactJs, PHP, Laravel, NodeJs, SCSS*

Developed a dynamic Researcher Profiling Portal and implemented an intuitive search functionality to provide comprehensive and relevant information about researchers, enabling users to effortlessly discover researchers and explore their profiles based on specific names or research areas.

#### Portfolio Website

Crafted a captivating and fully dynamic personal portfolio website utilizing ReactJS and CSS frameworks, showcasing my skills, projects, and accomplishments in a visually engaging manner to leave a lasting impression on visitors.
